PRESS RELEASE

## MELITRON INSTALLS THE FIRST AMADA EMLZ COMBINATION TURRET PUNCH/LASER FMS CELL IN NORTH AMERICA

**GUELPH, Ontario, September 27, 2006** - Melitron Corporation is pleased to announce the installation of the first Amada EMLZ 3510 combination turret/laser flexible manufacturing system (FMS) cell in North America.

The fully automated blanking cell which includes material storage and retrieval, further supports the Company's strategic approach to reduced labour content in manufacturing processes and unmanned, lights out production capability.

The company is an industry leader in contract manufacturing of precision metal products and the EMLZ 3510 further advances Melitron's manufacturing strength.

"The significant efficiency gains of the EMLZ cell, together with the cost savings derived from automation, reduced setups and uninterrupted program changeovers, provide Melitron with another very distinct competitive advantage." Mike Turner, Vice President

For more information, please visit the sheet metal fabrication page of the Company website at: [www.melitron.com/services/sheet-metal.html](http://www.melitron.com/services/sheet-metal.html).

### About Melitron
